VOLUME FIFTY-SIX -- NUMBER FOUR

Thousands Enjoy Winter Carnival

AFFAIR WAS BIG SUCCESS IN day evening. With some seventy-

the thousands! The old town was here to enjoy winter sports and the carnival over the week end.

The Ninth Annual Winter Sports carnival is now a matter of history, and a new red-letter occasion is indelibly written into the records of this annual Grayling

With business places ablaze with flags, shields and pennants, Grayling presented a most gala appearance. The local residents were all enthused for the approaching event and when the by the toastmaster. These includ-time came for opening the first ed Mr. Holger Peterson, President features, they found a perfect pected visitors at the park. Out side visitors began to arrive early In fact many parties registered at hotels, and rooming houses days before the opening date. And many lake and river lodges were filled with their owners guests, from all parts of the cen tral states.

The weather was ideal and there was a general let-loose for a good time and soon the big ously contributed by the busines toboggan slides at the park were humming with activity. And this feature didn't let up until late Sunday night. Bob-sleds were streaking down the bob-sled track in rapid succession and ski jumpers were plying their favorite sport. On the fine ice rink, skaters were having "the best time" while at the hockey rink, those demons on skates were either working out or engaged in terrific combat.

And, gosh, what a crowd! Saturday's attendance was large, but Sunday Autos began arriving at the park early and the immense parking space provided was neartaxed to the limit. Who could believe that so many people would be Grayling-bound to attend the carnival. They came from everywhere, and we wonder if there were many out-door sports left at home in Bay City. And Sagi-naw, Lansing, Detroit, Toledo and hundreds of other cities were well represented. And there were autos with license tags from Ohio. Indiana, Wisconsin, Illinois, Kentucky, Tennessee, Virginia, Missouri, and the Carolinas. And Northern Michigan towns were just about 100% represented. Petoskey hockey team and speed and fancy skaters and scores of others represented that city.

Among the interesting events connected with the carnival were Banquet given in honor of the queen and her court (Friday at Shoppenagons Inn: Men's banquet at the same place in honor of some of the visiting guests, Saturday night; and the coronation ball at the school gym nasium Saturday night.

Queen's Banquet

The Queen of the Winter Sports

five guests in attendance.

Two long tables, centered with They came from everywhere by large bouquets of pink roses and carnations in silver baskets on almost swamped with visitors, all either side of which gleamed llighted pink candles in silver candelabra, were filled with the guests of honor and their friends.

Following the dinner Dr. C. R. Keyport, toastmaster for the occasion introduced the queen and her court and ex-queens to the guests who showed their enthusiasm with a round of applause Miss Malonen responded few words of appreciation for having been chosen queen. Im-promptu talks were then given by several, who were called of Winter Sports, Mayor Dr. C. winter sports setting awaiting ex- G. Clippert, and Mrs. Louise Connine, chairman of the queen' committee, and Rev. Fr. J. L. Culligan. Miss Kitte Mitchell, social editor for the Bay City Daily Times was then introduced. She responded with complimentary words for the winter sports project and then in a very gracious and happy manner presented the queen and each of her court with gifts which had been very gener-The ex-queens were forgotten either and shared with the queen and her court in receiv ing gifts.

The affair was very delightful throughout and will stand as one of the most charming of the occasions given for the queen and her court during the carnival week. Mrs. C. G. Clippert was chairman of the banquet commit-

The Men's Banquet

A banquet, complimentary to several out-of-town guests was presented by officers of the Winter Sports association. There about forty present.

Among the guests present were William Green, our representative in the State Legislature; Glenr MacDonald, sports writer for the Bay City Daily Times; Frank Wells, photographer for the Detroit Times; Hazen (Kiki) Cuyler outfielder for the Chicago Cubs of Harrisville, Claud Yokey, district highway commissioner, of Harrisville; A. J. Bruce, Birmingham, and Chas. Garland, Detroit.

Holger F. Peterson, president of Winter Sports presided at the talk-fest that followed. There were a number of brief responses and a lot of singing in which everyone joined, including hotel guests at other

Tribute was paid by Mr. Mac-Donald to those persons of Grayling who, by their effort an indomitable courage were willing to continue the winter sports in spite of the many setbacks they had had. Clarence Johnson came in for the lion's share of praise for this work, which he well deserved. While many were ready to drop the affair, Clarence said to drop the affair to drop the aff continue the winter sports

5,000 Birthday Balls to Honor President January 30 And to Help Finance Fight on Infantile Paralysis

GETTING READY FOR THE BIGGEST BIRTHDAY PARTY IN AMERICAN HISTORY

Every community in the nation will honor President Roosevelt when he becomes 52 years old on Tues. day, Jan. 30, by giving a local ball to help endow an extension of the nation-wide work of the Warm Springs Foundation for infantile Paralysis in which the President is so deeply interested. Upper left, the President and his mother, Mrs. James A. Roosevelt, who bought the first box sold for the New York ball in the Waldorf-Astoria, upper center, Colonel Henry L. Doherty, chairman of the committee of leaders arranging the observance of the President's anniversary; upper right, the official poster contributed to the movement by the famous artist. Howard Chandler Christy: lower picture, child patients at Warm Springs sharpening up knives and appetites for the largest observance of the President's birthday ever held at that health center. The cake, weighing 344 pounds and said to be the largest birthday cake ever made, was presented to the children for their party by Chairman Doherty.

You are invited to attend the President's Birthday Ball in Grayling, Tuesday, January 30th at the School Gym. Tickets will be 50c person. Now on sale.

men, together with others who joined in the work, put this carnival over this year in a magni-

bonds of Cheboygan.

Ball Tues. Jan. 30 The largest crowd that has ever Grayling as usual will follow attended a party at the school.

CAMP HIGGINS DEFEATS HOUGHTON LAKE AND CAMP PIONEER

Basketball is being enjoyed among the CCC camps surrounding Grayling and a lot of rivalry is springing up. This is nice clean sport and no doubt some interest-

victories they are boasting of, one played last Friday night when as well as to dance to the peppy music of Judd's Varsity Vaga
Plans are completed for giving they won from Houghton Lake and the published in the Avalanche, is a very levely party at the school the other Monday evening when keenly interesting to the public.

> field goals in the third period and coasted in to win by 29-15. Along with Harrison, Bates and Hendwere outstanding in the Pioneer

In the Monday game Higgins ou ntet outclassed the Pioneers Blazen and Korhonen, the team had no trouble in staying far in front of the team from Co. 1611. Schubert with two field baskets and a free throw was Pioneer's high scorer for the evening.

WINTER SPORTS

The fact that 10,000 visitors gathered Sunday for the Winter Sports Carnival annually held at Grayling is a good indication that Michigan's vinter attractions possess great appeal. In many resthe Evergreen County is at its text when deep snow covers the ground and skiing, bob-sledding, tobogganing, skating and similar amusements become avail-

were better known and more wideritis, lumbago, sciatica and similar ly enjoyed, it would be beneficial making me Queen of the Winter illnesses incapacitate more men and both to the visitors and to the Sports Carnival and for the many women for their daily work than residents of the region.—Detroit beautiful gifts I received.

Grayling Bank Had Splendid Year

Abulanche

Esbern Hanson continues as President; John Bruun promoted To Vice Pres.; Margrethe Nielsen, Cashier.

Another year has passed in the life of Grayling State Savings Bank, and another record of achievement and progress is now a matter of history. The officers and stockholders are elated, not only with the 10.9% net earning during the past year, but more so with the fine stable condition of the bank itself.

At the annual meeting of stockholders and directors held the first of the month, Mr. Esbern Hanson was re-elected President and again deserves the gratitude of our people for unselfishly devoting much of his time and giving freely to the bank of his business experience as a service to and in 1922 became a member of the community. John Bruun, the firm of McCullough & Matson. Cashier and Manager was promot- Mr. Matson served as township ed to Vice-President and continues treasurer, and had been a memas manager. This is in recognition of his excellent management since the organization of bank, and Miss Margrethe Nielsen of the offices, and was a pastmastoo received deserved recognition when she was made the cashier. No change was made in the membership of the Board of Directors, who like the president, are serv ing the bank without receiving compensation of any kind. They are as follow:

Esbern Hanson, Fred R. Welsh Holger (Dad) Hanson, A. J. Nelson, J. F Smith.

Resolutions were passed at the stockholders meeting complimenting the management for ficient manner in which the af fairs of the bank had been conducted during the past year. Deposits during the past year

had increased approximately \$80, 000.00. Commercial deposits had increased from \$75,292,96 on Janu-January 1, 1934, to \$133,302.02 on January 1, 1934. During the same period, savings deposits increased from \$6,406.82 to \$24,447.89.

While deposits have increased greatly, loans had increased only from \$65,247.07 to \$68,947.78 However in spite of that 765 loans were made during the year, amounting to \$245,495.53. This indicates a splendid business donin short time loans.

It was gratifying to the stockholders to find that, at the end of the fiscal year, only 181 loans, amounting to \$66,696.48 were out standing: which shows a very good

During the year the bank issued 2045 drafts, amounting to \$1, 216,561.81. Checks handled dur ing that time amounted to \$2,636,557.87. Of this amount checks drawn upon the bank itself amounted to \$1,501,275.93, which indicates an active local business.

By ten o'clock the gym floor gymnasium with 100% of the they defeated Pioneer Camp on was filled to capacity with a ticket sale (The tickets to be 50 the the Grayling court.

In the Houghton Lake game the large of the would our town be without a good Taylor. ed. And it's a great bank for this territory that can make the number of its loans total to nearly a quarter million in the brief time of one year thereby greatly stimulating local business.

During the year, the bank shipped out in currency \$113,777,00. From August 4th to August 21st, \$51,472.00 were shipped out; that alone plainly reflects what the National Guard encampment means to our community.

Between the two bank holidays and the time after the national given in detail by Mrs. Jess Sales, bank holidays, Grayling State Savas to education, finances, resouces, ings Bank at all times has paid housing facilities and factory con-100% on any accounts—commer- ditions. cial or savings-with no restric

Efner Matson Passes Away

Efner F. Matson, a well known resident of Grayling since 1899, and who for years had been one of its estimable business men, passed away at his home Saturday evening at 7:30 o'clock after suf-fering for a long time from a throat ailment. It was in 1931 throat ailment. It was in 1981 that he retired from business, disposing of his interest in the firm of McCullough & Matson, before of McCullough & Matson & McCullo cause of ill health, and from that time he had steadily failed Mr. Matson was born in Lapeer,

Michigan, June 19 1875 and there he grew to manhood. In 1898 he was united in marriage to Jeanette Anderson at Flint and the next year Mr. and Mrs. Matson came to Grayling and this had been their home since. From the time he began his business career he had been in business for himself Mr. Matson served as township ber of Grayling Lodge F. & A. M. since 1901. He was very active ter of Grayling Lodge.

Local business places were closed Tuesday afternoon during the funeral, as a token of respect. Services were held at Michelson Memorial church, where Rev. H. J. Salmon delivered a most impressive sermon. The choir com-posed of Mrs. Herbert Gothro, Mrs. June Underwood, Mrs. Roy Milnes, Mrs. Harold Jarmin, with accompaniment by Mrs. T. P. Peterson, beautifully rendered the hymns during the service. The deceased was laid to rest yith Masonic honors, the following members acting as pallbearers: George Olson, Jesse Schoonover, M. A. Bates, Clayton Straehly, Frank Ahman, George The large profusion of flowers with which the casket was surrounded spoke the sympathy of hosts of friends.

Surviving the deceased are his widow, three daughters and two sons, Mrs. W. Clarence Smith, Roscommon, Miss Janet, Detroit, Miss Elizabeth, student at Battle Creek College, Stanley of Flint, and Farnham at home. at home together with Mr. Smith of Roscommon, Mrs. Stanley Matsister, Mrs. Elizabeth Heenan and son Kenyon of Royal Oak, and

in attendance at the funeral. The Avalanche joins with many friends in extending sympathy to the remaining members of the family in their sorrow.

Your Committee on Ways and Means to whom was referred the several communications, beg to report that they have had the same under consideration and respectfully recommends that they be tils-

In regards to the communication from the Governor relative to turning over the July Weight and Gas apportionment to the Emergency Welfare Relief, this resolution was passd in the October session, and that the Clerk he instructed to write the Governor informing him of this action.

We recommend that a resolution similar to the one adopted in Washtenew County by their County Board of Supervisors requesting that a bill be passed by the legislature transferring all costs of pare and treatment of tuberculosis to the State, be adopted by this

In the matter of communication from Gogebic County requesting that we pass a resolution similar to one adopted in that county requesting the special session of the legislature the enactment of a law granting to counties the power to own and operate electric light plants for the purpose of furnishing to its inhabitants electric current, that this matter be tabled.

That we adopt a resolution similar to one adopted by the Otsego County Board of Supervisors urging the legislature to prohibit the closing of lakes and streams to the public.

That the matter of changing the County Road Commissioners from an elective to an appointive office be placed in the hands of the entire Board as a committee of the whole. Signed: S. A. Dyer, A. Howse, and P. W. Christenson, Committee on Ways and Means.

Moved by Dunckley, and supported by Caid, that we accept the report of the committee on Ways and Means. All members voting yes. The motion carried.

Moved by Dyer, and supported by Dunckley, that the Chairman of the Building Committee be authorized to purchase five common kitchen chairs and build one common table for the local Welfare Relief Commission, and that the Clerk and the Trea urer be authorfzed to issue warrant in payment of same. Yeas, Dyer, Dunckley, Love, Christenson, Caid, and Howse. Nays, none. The motion carried.

Moved by Christenson, and supported by Howse, that we adjourn until nine A. M. Wednesday, the third of January, A. D. 1934. All members voting yes. The motion carried.

Axel M. Peterson, Clerk. Frank E. Love, Chairman. Wednesday Session, January 3rd, 1934

Meeting of the Board of Supervisors for the County of Crawford, continued and held at the Court House in the Village of Grayling,

on Wednesday, the third day of January, A. D. 1934. Roll called. All members answering present.

The Board met pursuant to adjournment. The Board was called to order by the Chairman, Frank E. Love.

The minutes of vesterday's session were read and approved of. The Annual Report of the County Road Commission was read at

Moved by Howse, and supported by Christenson, that we accept the annual report of the County Road Commission and that it be placed on file, with certain recommendations which will be offered later. All members voting yea. The motion carried.

Afternoon Session Resolution as offered by Supervisor Dunckley:

Whereas, the Board of Supervisors in session, deem it to the best terest of all concerned in Crawford County that the office of County Road Commissioner be made an appointed office instead of being made an elective office as made such by resolution of the Board of Supervisors of this county in the June session of 1930,

Now therefore be it resolved, that the matter of the office of Cound Commissioners be left to the Board of Supervisors of Crawfard County, Michigan, and that hereafter, the members of the Board of County Road Commissioners of Crawford County be appointed by the Board of Supervisors of Grawtord County, miningen, instead of being elected by the people of said county. Resolved further that the Clerk of Crawford County is hereby and printed by the people of the county is the people of the county is the county in the county in the county is the county in the county in the county is the county in the county in the county in the county is the county in t lated by the Board of Supervisors of Crawford County, Michigan, to accept nomination petitions for said office, nor to have same printed on the Primary Election Ballots nor the General Election Ballots.

Moved by Dunckley, and supported by Caid, that we accept and adopt the foregoing resolution. Yes and may vote called. Dunckley, Caid, Love, Christenson, Howse, and Dyer. Nays, none. The motion carried.

Moved by Dunckley, and supported by Christenson, that the County remit the taxes on lots one and two of block two of Dilly's Addi-tion to the Village of Fredericsville, provided the Township Board of Fredericsville does the same, and that the County Treasurer be and is hereby authorized to pay the state tax on the above described

description. Yes and nay vote taken. Yess: Dunckley, Christenson, Leva, Caid, Howse, and Dyer. Nays, none. The motion carried.

Moved by Dunckley, and supported by Rowse, that the Poor Communication be authorized to repair doors and windows of lots one and the library of Dilly's Addition to the Village of Fredericaville,

a sum not to exceed fifteen dollars. Yeas: Dunckley, Howse, Joye, Christenson, Caid, and Dyer. The motion carried.

Moved by Caid, and supported by Dyer, that we adjourn until nine a. M. Dunckley, January the fourth, 1984. All members voting year. The metion carried.

Azel M. Peterson, Clerk. Frank E. Love, Chairman Thursday Session, Jamesry 4th, 1984

of the Beard of Supervisors for the County of Crawford, and last in the Count House in the Village of Grayling, on the Supervisor, A. D. 1884.

At manufacts intervising present.

A STATE OF THE STA

Denotes the decision of the control of the Control

Moved by Hewse, and supported by Dunckley, that the bills on file be placed into the hands of the Committee on Claims and Accounts. All members voting yea. The motion carried.

THE R. O'Bride, Attended General,

that Bassian of the Board of Supervisors today I was in-

At a Special Seasies of the Bossi of Supervisors today I was inthreshold to write to you fer some legal advice.

The office of sounty read commissioner is now an elected office in
the county, and the Bossi of Supervisors wishes to know what
presente must be taken to again make this office an appointed one.
These are now two appointed commissioners and one elective one
on the Bossi of County Road Commissioners at the present time.

Has the Bossi of Supervisors the power to again make this office
on appointed one and if so can they do so without petition from the
frecholders of all the termships? We would appreciate an early
reply as to what has to be done.

Your very truly,

Axel M. Peterson,
AMP:GS

amp:G8 Crawford County Clerk. A true copy, Axel M. Peterson, County Clerk.

A careful study of this whole act seems to indicate that the legis-lature indended to and did leave it up to the board of supervisors to decide as to whether or not, at least in the first instance, such board of road commissioners should be appointed by the board of superviors or elected by the people of the county and I believe that it was the intention of the legislature also to confer upon the board of supervisors the right to say at any time whether the members of said board of county road commissioners should be elected by the people or appointed, else why provide, "** one (L) commissioner shall be elected or appointed biennially," and why provide that the provisions with reference to the election of a beard of county road commissioners shall not be mandatory, with the wisdom of this legislation, we have no concern.

See Gale vs. Bd. of Supervisors, 260 Mich. 399. While not free from doubt, I am of the opinion, that the board of supervisors may, by proper resolution through that office of member of the county road commission, be an appointive office and that thereafter such members shall be appointed by the board of supervisors unless and until such action be rescinded by the board of supervisors at some future time.

Yours very truly, PATRICK H. O'BRIEN, Attorney General.

Making Reporting Easier at Geneva

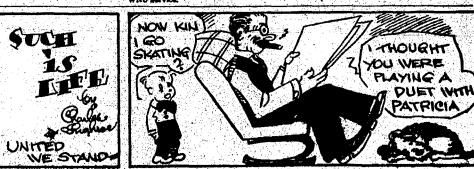

Newspaper correspondents attending the sessions of the disarmament conference and other gatherings in Geneva were provided with pocket radio recei<u>ving</u> sets that enabled them to hear the proceedings while prevented crime. Crime will be elim wandering about the building or sitting at ease in their retiring room.

Public Opinion

LEUNARD A. BANGET

TETE! Baker, vinced : that | He

rope is in a ter-moli, more intense than the period which immediately preceded the last war. It is not more just but a reasonable probability that war may be imminent in Europe. The edds accepted by Lloyds in Landon decidedly vision war in the very near future. What has become of the various peace pacts? Internation agreements and private commacts between nations? Laws? Too but laws guarantee nothing unless co-forced, and the power which demands enforcement is public opin on. In the final analysis, fewords shall be beaten into ploudares only when the mind of the public is united in its unconditional effort to enforce peace. War could be abolished today if public opinion demanded it.

By common consent we are emer ing out of a depression. At least it seems so. But by no conselvable stretch of the imagination can legislation bring back prosperity. Laws are indispensable in creating the machinery, but they do not run the machinery. Public opinion does that. Prosperity will return as confidence returns. And what is con-fidence but another word for public opinion?

Whatever may be our views about prohibition, the repeal of the mighteenth amendment illustrates the fact that the force of power is not in the enactment of law, but in public opinion which enforces it. one time public opinion voted the Righteenth amendment into the Constitution. At another time public opinion repealed it.

In the realm of moral values, the same condition prevails. No code of laws, however, can guarantee the moral life of the community. The ten commandments, the most prehensive and perfect moral code the world has ever known, has not inated through a process of law only when the public demands it.

Public opinion is molded largely by the influence of religion, educa tion and the public press. When the lawmakers dictate the tenets of religion, the facts of education, or the mind of the public press, we have a despotic form of government. When freedom of expression pre-

valls, we have a democracy.

Metal Plating Secreta

of Egypt Are Revealed Some of the secrets of meta plating as practiced in Egypt more 4,000 years ago have been re vealed by study of a small copper kettle in the Metropolitan Museum Art, says Popular Mechanics Magazine. The kettle and an ac-companying basin, made about 2500 B. C. are regarded by a professor of Columbia university as the earli est examples of chemically applied metal plating.

While cleaning the kettle, smooth patches like silver were found among rougher areas of a typical old copper color. Tests established that the base metal of both kettle and basin was copper and that the silvery plating was a thin coat of antimony, with a small amount of iron as impurity.

The principle involved in applica actually electrolytic, but may have been accidentally discovered and applied. The professor says there is reason to believe that pic kling baths containing vinegar and salt were used by the ancients for cleaning bronzes after discoloration from heating, and the addition of antimony and contact with iron may have been accidental at first, but was repeated intentionally when the results were observed.

That antimony was available in ancient Egypt is proved by the antimony sulphide found in the eyebrow paint used by Egyptian wom en. Two methods of application of antimony plating have been found, each requiring only raw materials known to have been available in Egypt.

Giant's Causeway Result

of an Upheaval of Basalt The formation of the Clant's cause way, according to geologists, is the result of an upheaval of basalt along the northern coast of Ireland which occurred during the Tertiary period. This has left a weird and unusual promontory of broken pillars in a series of cliffs which project into the North channel near Bengore Head, about eight miles from Portrush.

When the volcanoes of this district were in activity they sent out sheets of lava over nearly the whole country of Antrim and the adjoining parts of Londonderry and Their molten masses were poured out over the chalk that lies deep below, and ages of erosion have left the cold and rigid columns seen

Within an area of several hundred square yards there are some 40,000 of these pillar-shaped rocks and they are cut as if by mathematical calculation. They range in diameter from 15 to 30 inches, most of them being six-sided, although some of them have five, seven, eight and even nine regularly formed sides Some are 20 feet in height.

The Giant's causeway received its name from a legend that this group of basaltic rocks was once part of a bridge or causeway over which giants passed between Ireland and

Banana Industry

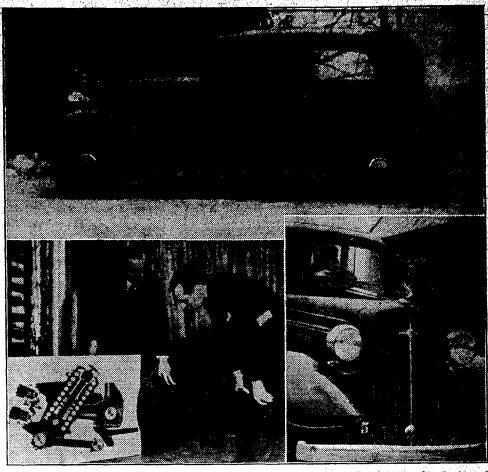

The banana industry had a modest enough beginning. At first there was Friar Tomas de Berlanga, who took a banana plant from Gran Canaria, to Santo Domingo in 1516. The schooner Reynard is said to have carried 30 bunches of bananas to New York in 1804, the magazine, Fortune, relates, but the venture was not pursued. In 1866 there was an attempt to ship bananas from Panama to the United States, but it was abandoned. The first successful attempt to ship bananas from the tropics to markets in the United States came when Capt. Lorenzo Baker, a Cape Cod sailing master, picked up a lot of bananas at Port Morant, Jamaica, for 25 cents a bunch and sold them in New York 11 days later for \$2.50 and \$8 a bunch.

When Education of Deaf Started The first attempt to teach a deafmute recorded in the United States was Philip Nelson's in Rowley, Mass., 1879. From 1778 to 1778 there was a deaf boy in John Harrower's school, Fredericksburg, Va., but not until the early Nineteenth century was concerted action taken to educate deaf children. Francis Green of Boston, whose deaf son was sent to Edinburgh to be edu cated at Thomas Braidwood's institution, become much interested in the problem. With some ministers, he attempted a census of Massa chusetts, 1808, when 75 deef were They then estimated 500 deaf in the United States and nrged the creation of a special school.

Old Libby Prices

The old Libby prison, which was moved to Chicago in 1889, was torn down in 1899 and the Collseum built on the site. The outer wall of the prison was used in constructing the front of the Collseum, which was built in 1900. The war exhibit, which was housed in the prison after it was taken to Chicago, is in the possession of the Chicago Historical ociety. The organisation also has a pair of the wooden shutters and main door of the prison on hibit in its Civil war room. Most of the building material is supposed to have been disposed of by the men who wrecked the building in 1809.

New "Knee-Action" Chevrolet Gives Passengers Ride Like a Glide

In the design and development of the new 1934 Chevrolet, particular attention has been given to driver and passenger comfort, all annoying sensations of disagreeable sound and feeling having been eliminated. The upper photo shows the new Chevrolet coach with its long, sleek lines. Wind rush has been eliminated by the Fisher No Draft Ventilators and the new streamlined bodies. Chevrolet's "Knee-Action" wheels enjoy the advantage of being very line of this year's Chevrolet.

The driver and passengers in the new 1934 Chevrolet get a ride like the glide of an airplane. One of the main factors in improving the riding qualities of the new car to such a great extent is the "Knee-Action"—or independently sprung front wheels, to use the technical term.

So much has been written about independent springing that the public has doubtless concluded that it is something too technical to understand. As a matter of fact, there is nothing complicated about either the principle involved or the construction of the system. Chevrolet's "Knee-Action" enjoys the advantage of being enclosed in a welded weathertight housing in which the entire spring mechanism and shock absorbers ride up and down in a bath of oil.

An automobile gives a perfect ride when both the front and rear springs have the same "frequency," or tension. Actually this has been impossible to carry out in the past because the front springs had to be over twice as "stiff" as the rear springs in order to hold the front axle, wheels and brakes in place. In independent arms.

The driver and passengers in the new 1934 Chevrolet | springing, the wheels and spring mechanism are rigidly

WiTH only five votes in opposition, the government's liquor tax bill, which is expected to add \$470,000,000 to the national revenue, was passed by the house of representatives. score of amendments altering the

tax rates was accepted by the house and the measure, as finally passed, carried the same rates originally recommended by the ways and means committee.

A rigid requirement that all bot-

tled liquor sold at retail must carry a federal stamp showing the government tax to have been paid and indicating the quantity and into the hill by the wave and means committee at the instance of the Treasury department.

As passed by the house, the bill imposes a tax of \$2 a gallon on distilled spirits, \$5 a barrel on beer and from 10 to 40 cents a gallon on

When the measure came up in the senate the Democratic leaders were caught napping and Senator Clark of Missouri secured the adoption of two amendments that stirred up quite a row. The first for the placing of addidebt payments to the United States. The second change repealed that portion of the Reed "bone dry" act prohibiting newspapers and periodicals carrying liquor advertising from entering dry states.

Administration pressure was brought to bear and next day the vote on the first amendment was reconsidered and the change was

The anti-cancellationists came to the front again when Senator Johnson of California obtained passage of his bill prohibiting the future purchase or sale of securities of. and loans to, any foreign government or subdivision which is in default to the United States, or to any American bondholders.

BY A 5 to 4 vote the United States Supreme court sustained the constitutionality of the Minnesota emergency mortgage moratorium law which provides that, during the emergency declared to exist, courts stand of the court when other New Deal measures come up hefore it.

In another opinion the Supreme court held that Bishop James Cannon, Jr., and Miss Ada Burroughs. his secretary, must stand trial for conspiracy to violate the federal corrupt practices act during the

campaign of 1928.

• by Western Newspaper Union.

A Frankenstein

A Frankenstein is a person de stroyed by his own works. The term is often erroneously applied to a monster. In Mary W. Shelley's "Frankenstein, or the Modern Prometheus," published in 1818, Victor Frankenstein is a young Swiss student who, while attending a German university, constructs a humanlike monster of materials obtained from cemeterles and dissecting rooms, and endues it with life by means of galvanism. The soulless monster, shunned by every living thing, is made frantic by unsatisfied human cravings, and commits atroclous crimes, finally inflicting horrible retribution upon the man who usurped the prerogative of the Creator. The author of the book, who was the second wife of Percy Bysshe Shelley, gave the monster no name in her narrative, a fact which leads many into the error of referring to it as Frankenstein.

LAND SALE Department of Conservation for the State of Michigan

Notice is hereby given, That tional high tariff duties on wines Sections 127 and 131 of the Genand liquors from foreign countries erail Tax Law, certain aban-that have defaulted on their war doned tax land, situate in the Office: 1615 Barlum Tower county of Crawford, and deeded to the state by the Auditor General, has been withdrawn from homestead entry by the Auditor General and Director of Conservation, acting jointly, examined and appraised, and will be placed on the market by offering the same at a Public Auction to be held in the county court house, Gay-Michigan, February 1934 at ten o'clock in the forenoon, Eastern Standard Time.

As required by Act 152, Public Acts of 1933 a list of the property to be offered at this auction is on file in the County Treasurer's office at Grayling, Michigan. Lists also available at Lan-Conservation Department office.

In case of sale the deed conveying said land will contain a clause reserving to the State of Michigan all mineral, coal, oil and gas rights, together with might step in to halt or delay real rights of ingress and egress over state mortgage sales and extend any of such lands lying along any periods of redemption. This was held to foreshadow the probable by Section 8 of Act 280, Public Acts of 1909, as amended; and further reserving to the State of Michigan all aboriginal antiquities and the right to explore and excavate for same, pursuant to the provisions of Act 173, Public Acts of 1909.

ODD THINGS AND NEW-By Lame Bode

WINTER CARNIVAL (Continued from first page) Donald, sports editor for the Bay City Daily Times. Mr. MacDonald debt of gratitude to the young gave a most interesting coronation speech, giving a summary of carnival over. Its success was the winter sports project for the past nine years. He mentioned that he had first been induced to come to Grayling and participate in our summer as well as winter sports by Mr. T. W. Hanson, and since that time had been a frequent visitor here. He congratu lated the community on having made such marked improvement from year to year in our winter sports project which had attract ed so many outsiders. A lively foxtrot followed and Mr. Mac Donald became the queen's dance ing partner following the cere mony. Thus another queen reigns

for another year.

During the evening intermission Bobbie Bennett, young son of Sheriff and Mrs. Bennett, gave an exhibition of song and yodeling.
The ball was the big event tha

opened the festivities of the winter sports carnival and it's suc cess was a forerunner of wha followed at the Winter Sports park on Sunday. Everyone felt the party pepped everyone up to enjoy the program which would follow on Sunday.

Pioneers Win From Pines And Win Finals From Petoskey

The hockey games drew their share of interest at the winter sports park. On Saturday afternoon Pioneer CCC Camp team. representing Grayling, played Hartwick Pines CCC Camp team The former won by a score of s to 1. In that game Frahm led the attack with 3 goals. Durkotn and Utick each had two and Schmeler and Patronic 1 each Page made the single marker for the Pines boys. Schmeler and Dur koth each was credited with a assist, and Branger an assist will the Pines.

On Sunday the Pioneers com pletely swamped the Petoskes team. This time Schmeler le the attack for the CCC boys and garnered 11 goals. Durkoth sunl one into the wicket, making the final score 12. Petoskey didn' fare so well and was able to scorbut two points in the game. Olils and Beardslay were credited wit the points.

The ice was in poor conditio for the game.

We are obligated to manage Frank R. Ogden of the Pionee are unable to print it on account of lack of time to get it into type

Carnival Notes

On behalf of the Winter Sport. committee we take the privileg of extending our thanks and appreciation to the newspapers of the state that so cheerfully and liberally helped to give publicity to our winter carnival, that was held over the last week end. The Bay City Daily Times gave gener ously of its space with writeup and pictures both before an after the carnival. Its versatile aports editor, Glenn MacDonald. and Miss Kitte Mitchell, editor of the woman's page of that paper spent much time here during the carnival and assisted a lot personally in affairs of the carnival.

Also the News, Free Press and Times of Detroit published stories and pictures of the carnival. The Midland Republican announced the carnival with a nice picture of the queen and her court. And our nearer neighbors, that are al ways so very generous in helping to spread news of affairs of Gray ling, each had nice stories before the carnival week. Special men-tion should be made of Roscom mon, Gaylord and West Branch newspapers. And there are many others—Cheboygan Observer and Daily Tribune; Petoskey News: Kalkaskian; Oscoda; Mio; Rose City; Gladwin; Standish and other newspapers all told their serious stomach trouble, eat what Brady, RF _____2 readers about the winter sports you want. Adia gives relief or Malonen, LF _____2 carnival. We had wonderful pub- your money back.—Mac & Gidley, licity from outside newspapers, druggists.

and the people of Grayling want to acknowledge all this help, with Alpena High Here

And the general public owe men of Grayling who put the due only because a lot of preliminary work had been done that necessitated concerted effort and many hours of careful planning. It was a good job, fellows And the ladies who planned and guided the social activities too spent much time and hard work and the results must be mos gratifying to them, and genuinely appreciated by the people in general. The Queen and young ladies of her court and our former-year queens sacrificed much personal ime for our pleasure. Thanks everybody.

The Queen's throne, built of now and ice, was a work of art Broad steps led up to the throne which was flanked on the side by snow benches for use of the queen's court. A mammoth far adiated from the center and rear preading its mighty beams full ength of the foundation and high above the throne. Hidden elec ric colored lights gave it a scin ilating brilliancy that put the inishing touches upon icent achievement. This was particularly beautiful at night and eight visitors by the hundreds went there ju t to look. The worl was done by John Deckrow of Grayling, who has been the mas ter architect for this work for everal years past. He was assisted in the construction by sisted Grant Thompson

Those of us who had the pleas ure of meeting and talking with Harrisville famous outfielder for the Chicago Cubs, can only have a fuller ap preciation of this splendid young man. He's of the Walter Johnson type—fine, clean minded, modest and very likable. He said so many had fold him that they watched the daily baseball reports and listened to the broadcasts of games to see what he had done that he felt it a responsibility to always do his best for his friends' sakes. He was here with Mrs Cuyler both days.

Our fine bugle and drum corps were in the carnival and lead the procession to the park Saturday noon. Following the young lads were cars carrying the queen and her court and several former queens. While the drum corps occupied a truck furnished by Carl Jenson, the young ladies rode in new autos furnished for their convenience during the carniva by Alfred Hanson Service Station and the Corwin Auto Sales. The cars were appropriately decorat ed. Grayling Band enlivened Sun day afternoon at the Park by their music.

The business places in town were nicely decorated. The work was done by "Circus" Jack Davis of Bay City.

Nearly every business place in Crayling had window scenes de-picting win er sports. There were any very clever displays

Eating places were taxed to the mit Sunday to feed the vast crowd of visitors. The pavilion at the park served light lunches Mrs. Collen says that she used 105 pounds of meat for hamburger sandwiches alone, bisides grea quantities of hot dogs, coffee, etc Shoppenagons Inn was overflow ing and had to find outside place for many guests. Carl Sorenson's rooming hotel too had every room team for a complete box score for rooming hotel too had every room each game and regret that we rooming. All the available beds in Mercy Hospital were taken al o But nobody was required to go without a comfortable place

> Very few accidents have been enorted during the carnival, as thousands schoted down icy tobor and they were minor. Lone McClain who had never made a ski jump in his life, said that he went down the mammoth 60-foothigh ski jump. Half way down very good job of landing and sprained wrist is the result.

The young ladies in the Queen's court were Miss Elna Mae Sorer son, daughter of Mr. and Mrs. Herluf Sorenson; Miss Thelma Chappel, daughter of Mr. and Mrs. Clifford Chappel, Miss Elaine McDonnell, daughter of Mr. and Mrs. James McDonnell and Miss Jennie Lee Raymond, who makes her home with an aunt and uncle. Mr. and Mrs. James Atlen Frederic.

Friday Nigh

One of our big games of th season is scheduled for Frid night. This game with Alpena sure to be something worth whi

Altho they beat us when v played them on their own floor earlier in the year, this was only following the natural order of things as set down by last year's team. In the two games played with them last year, one was a City is spending a week with her victory and the other a defeat. Coach Cornell expects this season to be a duplicate of last as far as Alpena is concerned—one victory, one defeat.

Regardless of the score, this teams should be well worth seeing. Alpena is a class B school but matches with them have always been of the finest competition.

The preliminary game, in which the Grayling High second team meets Houghton Lake, promises to be fast and furious. The last time these opponents clashed, Grayling lost by a narrow margin, a game in which there was never a dull moment. The Reserves hope to turn the tables this time.

/Last Friday night was a big light for Grayling. Our ball club was clicking and everything went ine. Our boys hit their stride and defeated Lake City, a truly formidable opponent, by the ather lop-sided score of 35-24/ hey showed what they can do, once they break the run of bad luck that has followed them throughout the season, and altho Lake City has a good ball club, one in fact that, earlier in the season, whipped teams that had beaten us, the boys "went to town" in a very decided manner. The Reserves lost by a one-point margin in the last minute of play.

The game Saturday night was to have been played here, but for some unforseen reason, it was necessary to change the schedule and our team went to Roscommon instead.

This contest was another one of those hard luck sessions for the Green and White. The old hoodoo again descended, and try as they might, the boys simply couldn't find the hoop. They played hard, tho, and held their own until the last few minutes when Roscommon put on a determined spurt to close the game with a score of 16-18 in their favor. The Reserves took a hard 12-13 defeat to make the evening complete.

President Asks for Nationalization of Gold Supply-Not Yet Ready to Fix Exact Value of Dollar-Carlos Mendieta Given Cuban Presidency.

By EDWARD W. PICKARD

PRESIDENT ROOSEVELT sent to congress his long-awaited mesmonetary matters, and it should be in a measure reassuring

to business and finance. He asked that the gold sup ply of the country be nationalized and that his powers be redefined to enable periodic revaluation of the dollar within a range of 50 to 60 per cent of the present gold content. He already had the

President

Roosevelt power to devalue the dollar down to 50 per cent, but he does not do so yet, saying that "because of world uncertainties, I do not believe it desirable in the public interest that an exact value be now fixed." He added that careful study had led him to the conthat any revaluation more than 60 per cent would not be in the public interest.

The President asked full power to take over the last outstanding supplies of gold in the country nuch of which belongs to the federal reserve banks. The legislation he requested, he explained, "places the right, title and ownership of our gold reserves in the government itself; it makes clear the government's ownership of any added dollar value of the country's stock of gold which would result from any decrease of the gold content of the dollar which may be made in the public interest."

The profit that may result from cutting the gold content, the President proposed should be used to set up a two-billion-dollar fund for purchases and sales of gold, foreign exchange and government securities.

No further recommendations con cerning silver were made in the message, the President saying he believed "we should gain more knowledge of the results of the London agreement and of our other monetary measures."

Immediately after the reading of the President's message, Senator Duncan U. Fletcher of Florida. chairman of the senate banking and currency committee, introduced the administration's bill to effect the monetary changes proposed. He called his committee together the next day to consider it, and Secretary Morgenthau was the first to be heard in argument for the legislation asked.

Only two Democratic senators came out in the open promptly in opposition to the President's program, Carter Glass of Virginia and Thomas P. Gore of Oklahoma, Both declared that the appropriation of the reserve banks' gold was unlaw ful and immoral. Most of the Republicans were cautious in their expressions of opinion.

However, Attorney General Hom or Cummings rendered to the senate banking and currency committee a formal opinion upholding that section of the proposed bill.

"The monetary gold stock (of the federal reserve system) may be taken by the government in the exer cise of its right of eminent domain,' the attorney general's opinion de-clared. "Such power," he went on. "extends to every form of property required for public use.' Gov. Eugene Black of the reserve

board was heard by the committee closed session and Senator Fletcher said Black was unchanged in his opposition to the seizure of the federal reserve gold and the crue from the devaluation of the Senator McAdoo of California was

veraciously reported as sharing the views of Senators Glass and Gore but later sought to silence the rumor, asserting that he had not yet made up his mind.

16 W HO is president of Cuba this morning?" asks the man in the street, and there is reason for his uncertainty. At this writing the head

Carlos Hevia

the factions united in choosing as his successor the youthful Carlos Hevia, secretary of agriculture in Grau's cabinet and a graduate of Annapolis Naval academy. Hevia actually was sworn in before the Supreme court, but he lasted only one day. Then Col. Fulgencio Butista, powerful commander of the army, took command of the situation. There was a loud demand

that he resign his military post: a strike to force this was started by Antonio Guiteras, late secretary of war and navy, and Hevia ordered

that Fulgencio get out. But the army leader promptly brought 8,000 of his troops from Santa Clara province to reinforce the 5,000 at Camp Columbia, on the outskirts of Havana, and compelled Hevia to resign. He then declared that Mendieta was the only man capable of continuing the junta's revolutionary program with. out the extreme measures that had prevented recognition by the Unit-ed States; that he, Batista, recognized the costly mistake the junta had made in instailing Grau and would now rectify it. He ordered government employees to re main at work on pain of losing their jobs, but the strike went into effect far enough to tie up Havana's pow er, light, gas and transportation sys Batista ordered the arrest of Guiteras, whom he held responsible for this. A bomb exploded near Mendieta's residence but no one was injured.

Mendieta was assured the support of the Nationalists he leads. the political societies ABC and OCRR and the newer revolutionary organizations. Moreover, he had performed the highly difficult feat of reuniting the army and the navy They had been split apart previous ly over the breach between Guiteras and Batista.

GERMANY'S great church quarrel goes on unabated and the Evangelical pastors are still determined that their religion shall not be nazified. Reichsbishop Lud

a confidant of

administration from

of dismissal

Dr. Ludwig

But the rebellious Mueller ones, organized as the Pastors' Emergency league, defled Doctor Mueller and for the second time read to their congregations a manifesto demanding his resignation. It was up to the council of the churches to enforce the reichsbishop's decree, but several of the councils declared openly they would

not do so. Bishop Mueller showed some inclination to recede from his position, but the militant Nazi German Christian pastors brought great pressure to hear, telling him they would support him only so long as he stuck by his decrees. The bishop also seeks to annul all church laws passed in 1933 so he can proclaim new ones.

Reverend Doctor Richter, who is highly considered by President Von Hindenburg, declared in the Berlin cathedral that "a storm is brewing in Germany-a fight between Christianity and heathendom." In this contest, however, Hitler appears to have much more influence than the aged president, who is more and more becoming a figurehead.

R ESIGNATIONS from the Demo-

cratic national committee seem to be in order and some have already been received. The President let it be known that he did not approve of members of that hody open ing law offices in Washington and apparently trading on their supposed influence with the administration. Robert Jackson announced his resignation as secretary and committeeman from New Hamp-shire, and Frank O. Walker said he had resigned as treasurer in order to devote full time to his work as chairman of the President's national executive council. J. Bruce Kremer, practicing law in the ('apital, resigned some weeks ago as member for Montana. Postmaster General Jim Farley, it is said, wants to quit as national chairman, but Mr. Roosevelt may not permit this. Arthur Mullen, committeeman from Nebrasks and vice chairman of the committee, and Orman Ewing, member from Utah, both have established law offices in the Capital and it would not be surprising if they resigned from the national com

R EPUBLICAN members of the house ways and means committee proposed two important tax reforms. A constitutional amendment authorizing the taxation of federal and state government bonds was suggested by Representative Allen T. Treadway, with the state-ment that there are now some \$40, 000,000,000 of such securities outstanding and free from taxation. Representative Isaac Bacharach

proposed the restoration to the federal tax laws of a credit against merned income. His plan, Mr.

materially the tax burden of the small salaried class without seriously cutting into present income tax revenues.

SENATORS BORAH of Idaho, Norris of Nebraska and Nye of North Dakota, all independent Republicans whose support has been counted on generally by the admin-istration, have started a concerted attack on the NRA, charging that its codes foster monopolles and result in forcing the small dealers out of business. Their fight is not against the President and his policles, but against Gen. Hugh Johnson, NRA administrator, upon whom they place the blame for the faults they say have developed.

TALO BALBO, the bearded Italian air marshal who commanded the great mass flight from Italy to Chicago and back last summer and thereby became

Italo Balbo

in north Africa. He crossed the Mediterranean in state on the new cruiser Alberto di Giussano with another cruiser in escort, and when he landed was received by all the Italian officials in the colony and

Premier Mussolini,

Balbo, who is just thirty-seven years old, replaces Marshal Pietro Badoglio as Libyan governor. While s new line of activity it will be a job with an opening for him, for Mussolini wants to make Africa in time an outlet for Italian emigra-

a colorful gathering of the native

Balbo will keep up his interest in aviation, even though he is just governor of the sandy North African coast.

PUERTO RICO has a new governor who may please the islanders better than dld Robert H. Gore. He is Gen. Blanton Winship, former judge advocate general of the army, and a man of experience in insular affairs. He served in Cuba and the Philippines as an adviser to the highest American officials in those parts. Also he was a mili-His home town is Macon, Ga. Mr. Gore, whose administration was bitterly and constantly attacked by island politicians, resigned, stating his reason was ill health.

President Roosevelt also selected a new chief of the weather bureau in Washington in the person of Willis G. Gregg. He succeeds Dr. Charles F. Marvin.

Two thousand or more persons were killed and 10,000 injured by violent earthquakes that shook all parts of India. The full mensure of the disaster will not be known for some time, but airplane surveys revealed that many cities and towns had been virtually destroyed. In some regions the devastation was increased by floods resulting from the temblors. Communication systems were shattered and there was great danger of pestilence and starvation among the survivors.

BIRTH control has been put up to both congress and the President. A bill designed to promote it by repealing certain clauses of the neual code has been introduced and hearings started; and a committee headed by Mrs. Thomas N. Heplurn of Connecticut and Mrs. Margaret Sanger carried to the White House a resolution from the hirth control and national recovery conference in Washington asking Mr. Roosevelt's s measure.

CAMILLE CHAUTEMPS, fighting desperately to save his French government after the great Bayonne pawnshop scandal, promised the

ties to clean up that affair, and thereupon was given a vote of confidence, 360 against 229. The vote came on the govern ment's opposition to the creation of parliamentary commission to investigate the collapse of the Bayonne institution, the

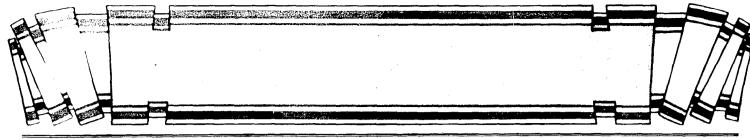

death of its founder, Serge (Handsome Alex) Stavisky, and the part several deputies have accused high officials of taking in the affair. The premier insisted that such a com-mission would not get to the bottom of the charges.

The premier promised to investi-

gate the affair personally and to spare no names. During the heatest debate he admitted there had been looseness and poor functioning of various services, but denied the charges of governmental and pelice corruption. The opposition deputies were furlous and there were open declarations that the country faced a dictatorship. Chantemps replied vigorously and made the assertion that a coup had been prepared several days previously to put the government in the hands of a few "energetic" men to act as
